We have IITians for future IITians

# A MENTOR IS SOMEONE WHO ALLOWS YOU TO SEE THE HOPE INSIDE YOURSELF

MENTORSHIP IS NOT A BUSINESS, BUT A CAUSE

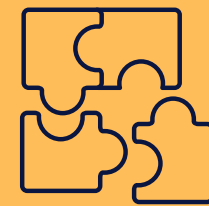

## Vision

Every student should have the support of a personal mentor.

We want to remove the factor of demotivation and stress from the student's competitive exam journey.

## Mission

To be the biggest mentorship platform in India.

Mentorship is the need of every domain. We want JEECarnot to be the centralized solution for all the mentorship needs

## Values

We believe that a mentor not only provides academic support but also guides a student's life. Mentors act as the torchbearers during the teenage years. We aim to provide students with the best mentors since we realize the importance of this crucial time.

# BRIEF INTRODUCTION

---

A STARTUP FROM IIT ROPAR WORKING  
TOWARDS THE PROBLEM THAT IS NEED  
OF THE HOUR IN THE GROWING  
EDUCATION SECTOR OF INDIA

JEECarnot started as an initiative with the sole purpose to help the JEE aspirants to get out of depression and stress. We soon realized that this is a huge problem where most JEE aspirants suffer from time management issues, fear of competition, depression, low confidence, and the right direction. We need a big team to solve these problems for students, and we decided to give it our best with a big dedicated team with a strong vision.

JEECarnot Education LLP provides personal mentorship to JEE aspirants by connecting them with the students who have cracked JEE and are studying in top IITs. The mentor is responsible for the student's motivation, guidance, the right path, and of course, success and final goal. While preparing for the JEE, we have felt the importance of a mentor in our life. We want every student to study according to his/her potential in an optimized way and achieve the target. Also, mentorship is not only for JEE but also for life as well.

# MENTORSHIP

---

Mentorship helps an individual increase his academic performance and achievements. Having a personal mentor helps in several ways. With a mentor, you form a strong bond of learning in which both the sides have reciprocative roles, and share mutual respect and regard for each other. Personal mentorship serves to bridge the gap between online teaching and a physical human guide, elegantly merging the two in the form of a mentor.

A mentor may also help you in choosing the right study material, as well as suggest the best ways to tackle a problem in your exam. You can acquire their insights on the dynamics of IIT-JEE as it will help you in seeing the problems and the exam from a different perspective. A mentor can assist you in solving not only the technical problems of the exam but also any psychological ones that you might face during your exams.

# HOW MENTORSHIP WORKS ?

## PLAN FOR COACHING STUDENTS

### Mentor Allotment

A mentor is assigned through a well-tested strategy of which ensures the assigned mentor is best for each individual

### Student Analysis

The mentor will analyze the student's current preparation status, retention power, and other important stuff to know the student better on the first call.

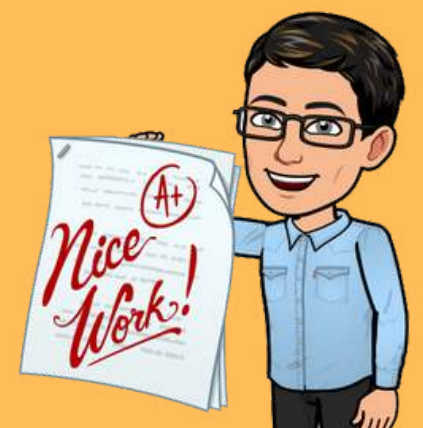

### Daily Connection

Mentor will be always connected to students on call and WhatsApp. He will analyze the student's weekly performance, guide him, and assign targets for the next days. These calls and interactions are the core of the program where the magic happens

### Final Exam

Till the final exam day mentor will be available always whenever student needs it.

# Our Mentor-Mentee Feedback System

1

## MENTOR TRACK

Mentee-Mentor Interaction will be documented by the mentor. The report ensures the consistency of mentorship and structured student reports for a long time. It will also act as a summary to be used in the next session.

2

## 24X7 AVAILABLE FEEDBACK FORM

A 24X7 live feedback form will be available to students. To reach out mentorship program's supervisor whenever he/she has a problem with the mentor or mentorship program.

3

## FEEDBACK ON WHATSAPP/CALL

The Academic Supervisor will do random calls to the student to ensure the mentorship quality by mentors and improvement in the mentorship program.

4

## QUICK ACTION AND RESPONSIBILITY

The feedback team is responsible for taking quick action on the responses of the live feedback form or Whatsapp/call of supervisors.

# JEECARNOT MENTORS-MENTORS FOR LIFE!!

# MENTEE SAYS..

---

## APOORV

" When I began my preparation, I imagined someone who would be with me throughout the preparation, someone who had previously been on the same path as me who would guide me personally. My parents had not given JEE exam, and so they had no idea as to how to prepare, what difficulties I might face, and how to overcome them. I found JEECarnot, no wonders I'm doing well in my coaching."

## SHIVAM PARIHAR

" Believe me, JEE Carnot is worth your time because they not only plan your months and give you study material but above all this, they give you your personal mentor, who will guide you in your journey to IIT. The speciality about the mentor is that he/she is also an IITian and used to be in our place, so they know better how to strategize your journey."

## FATIMA REEFAT

" Even after being a coaching student, it was difficult for me to get connected with my teachers, but I can not deny that I always needed a mentor who could guide me throughout my IIT-JEE journey. My mentors are beneficial and motivating. They analyse daily my preparation and provide me with the best schedule and strategy to improve the same."

## POORVI BADAYA

" I am a coaching student and in contact with JEE Carnot from past 2 months. They have mentored me in the best way possible, giving all types of material, strategies and best of all, motivation. Many people think a coaching student doesn't need a mentor other than his/her teacher, but that's wrong."
